WEDDING INVESTMENT OPTIONS

Thank you for your interest in booking a.farr photography for your big day! Averaging 15 weddings a year, Ashley & her team have the experience & dedication needed to ensure you have memories to last a lifetime!

Included in every wedding package are the following:

- All shots will consist of posed shots & candid shots. I love capturing candid & unexpected memories that you may not notice in the heat of the moment. I'm SUPER flexible & love trying out new ideas & poses.
 - Post-editing process of most images
- An unlimited number of photos! I put no cap on the number of photos you will receive from your wedding day. You can expect to receive at least 400 photos in your galley, but that is on the very low end! I'm very generous in the delivered files!
 - Facebook teaser photos uploaded within 1 day of the wedding.
 - All photos available & delivered within 45 days of the wedding.
- The option to add drone photography, a 2nd photographer or a bridal session for an added fee.

Please, contact me with any questions/concerns you may have! A custom wedding package can always be created to fit your special day!
